

Data flow audit

Which companies and jurisdictions this page sends data to

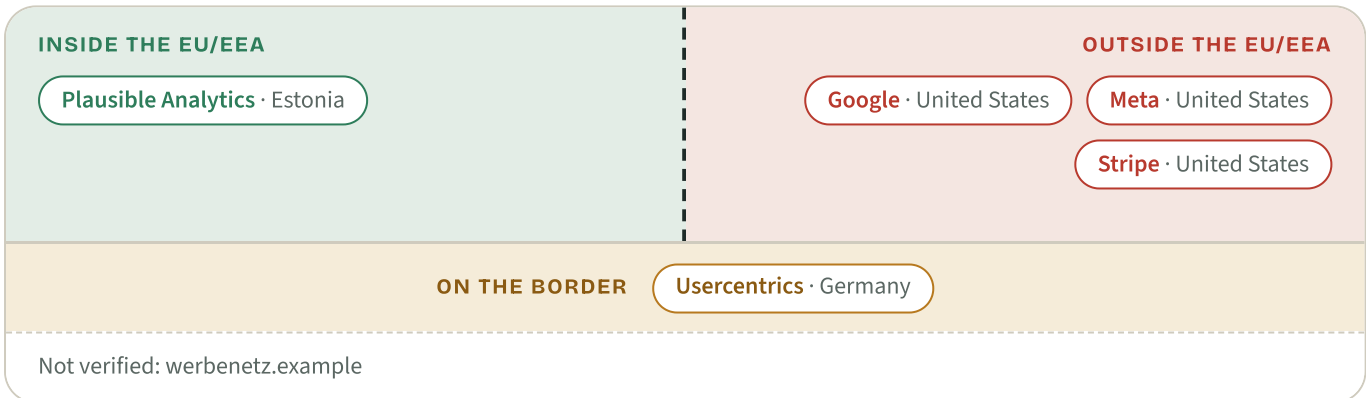

Website	musterbaeckerei.example
Page	https://www.musterbaeckerei.example/
Page loaded	September 24, 2026 at 8:30 AM
Report created	September 27, 2026 at 7:44 PM
Extension / dataset	2.1.0 / 0.4.0

Summary

Rating of the page: Non-EU

The operator or the network owner is controlled from outside the EU/EEA.

6 third parties · 17 requests · 3 first-party requests

Consent

Consent given at September 24, 2026 at 8:30:06 AM

Contacted before the mark

Google Non-EU

Stripe Non-EU

werbenetz.example Unknown

Usercentrics EU location, non-EU control

Plausible Analytics EU-controlled

Contacted only after the mark

Meta Non-EU

Findings

- Observed: analytics or advertising requests before consent was given (at the moment you marked).
(plausible.io, www.google-analytics.com, www.googletagmanager.com)

- Google Fonts are loaded from Google servers. (fonts.googleapis.com, fonts.gstatic.com)
- YouTube is embedded. (www.youtube-nocookie.com)
- Google Maps is embedded. (maps.googleapis.com)

Third parties

Google		Non-EU
Operator	Google LLC (United States)	
Ultimate parent company	Alphabet Inc. (United States)	
EU contracting entity	Google Ireland Limited (Ireland)	
Category	Analytics, Fonts, Maps, Video	
Services	Google Analytics; Google Fonts (CSS API); Google Fonts (font files); Google Maps JavaScript API; Google Tag Manager / gtag.js; YouTube privacy-enhanced embeds; YouTube static assets / thumbnails	
Network owner	Google	
Domains	fonts.googleapis.com, fonts.gstatic.com, i.ytimg.com, maps.googleapis.com, region1.google-analytics.com, www.google-analytics.com, www.googletagmanager.com, www.youtube-nocookie.com	
Requests	9	
Requests before / after the mark	8 / 1	
Reasons	The operator is not controlled from the EU/EEA.

Stripe

Non-EU

Operator	Stripe, LLC (United States)
Ultimate parent company	none (top company of its group)
EU contracting entity	Stripe Payments Europe, Limited (Ireland)
Category	Payments
Services	Stripe.js
Network owner	Cloudflare
Domains	js.stripe.com
Requests	1
Requests before / after the mark	1 / 0
Reasons	The operator is not controlled from the EU/EEA.

werbenetz.example

Unknown

Operator	Operator not in the dataset
Network owner	not in dataset
Domains	px.werbenetz.example
Requests	1
Requests before / after the mark	1 / 0
Reasons	The operator of this domain is not in the dataset.

Usercentrics

EU location, non-EU control

Operator	Usercentrics GmbH (Germany)
Ultimate parent company	none (top company of its group)
Category	Consent management
Network owner	Amazon Web Services
Served from	eu-central-1 (Germany)
Domains	api.usercentrics.eu, app.usercentrics.eu
Requests	2
Requests before / after the mark	2 / 0
Reasons	The network owner is not controlled from the EU/EEA. The server is in a published EU/EEA region.

plausible.io	ping	1.2 s	before	5.9.10.10	Hetzner	EU-controlled

Method

The extension recorded the network requests this browser tab made from the moment the page was loaded until the report was created. Only host names, request types, server IP addresses and timing were recorded, locally in the browser. The recording shows the page in the state it was visited in, for example before or after a consent banner was answered.

The auditor marked the moment the consent banner was answered. Requests are placed before or after that moment by the time they completed; a request that started just before the mark and completed after it counts as after.

Requests to the page's own registrable domain, and to other domains of the same operating company, count as first party. All other requests are third parties. Companies of the same group are separate legal entities and count as third parties.

Each third party is rated by who operates the requested domain, who owns the network the response came from, and, where the provider publishes it, the server location. The page rating is the worst rating among its third parties.

EU-controlled

Operator and network owner are companies controlled from the EU/EEA.

EU location, non-EU control

Served from a published EU/EEA location, but the operator or network owner is controlled from outside the EU/EEA.

Non-EU

The operator or the network owner is controlled from outside the EU/EEA.

Unknown

Not enough verified data to decide. The tool never guesses.

Countries outside the EU/EEA, including Switzerland and the United Kingdom, count as non-EU; adequacy decisions are not taken into account.

Company facts come from the extension's dataset (version 0.4.0). Every company is backed by sources such as company registers, imprints, SEC filings and official documentation; they are listed with each company. Companies without sourced data are rated "Unknown"; the tool never guesses.

Limitations

- Third parties not in the dataset are shown as "operator not in dataset" and rated Unknown.
- The server location is only known where a cloud provider publishes it per region; CDN edge servers usually have no published location.
- Cached responses and some proxies report no server IP; their network is then unknown.
- The before-consent finding is a heuristic based on timing; it does not observe consent.
- The report describes one visit of one page at one point in time. Other pages, visitors or consent choices can produce different results.
